

Product no **AS09 527P**

**AGO1 | Argonaute 1, Blocking peptide**

## Product information

**Format** | Lyophilized

**Quantity** | 100 µg

**Reconstitution** | For reconstitution please add sterile water

**Storage** | Store lyophilized/reconstituted at -20 °C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

**Additional information** | **Estimation of the ratio between antibodies and peptide** : In neutralisation assay use 9,16 µg of argonaute 1 peptide for 10 ml of reaction volume.

In case of any questions please contact [\[email protected\]](#)

## Application information

**Expected | apparent MW** | 1716,9 Da

**Additional information** | Due to its low molecular weight, this peptide is not suitable for separation on a SDS gel,
