## Product no AS09 383 AO | ascorbate oxidase, Biotin conjugated

## **Product information**

Immunogen	ascorbate oxidase purified from Cucurbita sp.
Host	Rabbit
Clonality	Polyclonal
Purity	Purified IgG in PBS pH 7.2.
Format	Lyophilized
Quantity	10 mg
Reconstitution	For reconstitution add 1 ml of sterile water, Allow reconstituted product to stand for at least 30 minutes at room temperature prior to dilution, If necessary, centrifuge to remove any particulates, Prepare fresh working dilution daily
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube. Working dilutions should be stored at 4°C, not refrozen and prefarably used the same day. If slight precipitation occurs upon storage, this should be removed by centrifugation, It will not affect the performance of the product.
Additional information	IgG protein fraction is prepared by ammonium sulphate precipitation and ion exchanged chromatography, N-Hydroxysuccinimidobiotin is used for labelling of antibody
Application information	
Recommended dilution	1 : 1000-1 : 30 000 (ELISA), 1 : 1000 (WB)
<b>F</b>	

	1 : 1000-1 : 30 000 (ELISA), 1 : 1000 (WB)
Expected   apparent MW	61   45 kDa ( <i>Cucurbita pepo</i> )
Confirmed reactivity	Cucurbita sp.
Predicted reactivity	<i>Glycne max, Oryza sativa</i> Species of your interest not listed? <u>Contact us</u>
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
Additional information	IgG concentration is 10 mg/ml, Biotin/IgG protein molar ratio is approximately 5,6, No foreign proteins are added
