

Product no **AS10 1604****Anti-AtpF | CF0I subunit of ATP synthase****Product information**

<b>Immunogen</b>	Isolated CF <sub>0</sub> I subunit of the chloroplast ATP synthase complex of <i>Arabidopsis thaliana</i> , UniProt UniProt::P56759, TAIR: ATCG00130
<b>Host</b>	Rabbit
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Serum
<b>Format</b>	Liquid
<b>Quantity</b>	100 µl
<b>Storage</b>	Store at short-term 4 °C, Long-term -20 °. Repeated freezing and thawing is not recommended. It contains 0,01% sodium azide.

**Additional information** | This product can be sold containing proClin if requested**Application information**

<b>Recommended dilution</b>	1 : 5000 (BN-PAGE), (WB)
<b>Expected   apparent MW</b>	21 kDa
<b>Confirmed reactivity</b>	<i>Arabidopsis thaliana</i> , <i>Chlamydomonas reinhardtii</i> , <i>Spinacia oleracea</i> , <i>Ulva prolifera</i>
<b>Predicted reactivity</b>	<i>Cannabis sativa</i> , Higher plants, <i>Phaseolus vulgaris</i> , <i>Pisum sativum</i> Species of your interest not listed? <a href="#">Contact us</a>
<b>Not reactive in</b>	No confirmed exceptions from predicted reactivity are currently known

**Application example**

20 µg of chloroplast fraction from *Arabidopsis thaliana* (1) and *Spinacia oleracea* (2) were separated on 12 % SDS-PAGE and blotted 1h to PVDF. Blots were blocked with 2 % non-fat milk powder in 1xTBS-T for 1h at room temperature (RT) with agitation. Blot was incubated in the primary antibody at a dilution of 1 : 5 000 for 1h at RT with agitation. The antibody solution was decanted and the blot was rinsed briefly twice, then washed once for 15 min and 3 times for 5 min in TBS-T at RT with agitation. Blot was incubated in secondary antibody (anti-rabbit IgG horse radish peroxidase conjugated) diluted to 1:10 000 in for 1h at RT with agitation. The blot was washed as above and developed for 5 min with ECL

This product is **for research use only** (not for diagnostic or therapeutic use)
