

Product no **AS15 3038**

CFP | Cyan Fluorescence Protein (monoclonal, Clone GF28R)

Product information

Immunogen	KLH-conjugated N-terminal peptide of Green Fluorescent Protein (GFP) from the jellyfish <i>Aequorea victoria</i>
Host	Mouse
Clonality	Monoclonal
Purity	Total IgG. Protein G purified in PBS, pH 7.4. Contains 0.052% sodium azide.
Format	Liquid
Quantity	100 µg
Storage	Store at -20 °C for up to 1 year, Make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Exact working dilution needs to be determined by end user

Application information

Recommended dilution	1 : 1000 (WB)
Confirmed reactivity	Native and denaturated Cyan Fluorescent protein (CFP) and its variants: Enhanced Green Fluorescent Protein (EGFP), Yellow Fluorescent Protein (YFP)
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
