Product no AS16 4044 CIpR | Putative ATP-dependent CIp protease proteolytic subunit-like

Product information

ImmunogenFull length Synechococcus sp. strain PCC 7942 ClpR protein, fused to MBP (maltose binding protein), UniProt:
Q9L4P4.HostRabbitClonalityPolyclonalPuritySerumFormatLyophilizedQuantity50 μlReconstitutionFor reconstitution add 50 μl of sterile waterStorageStora lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please
remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to
the cap or sides of the tube.

Application information

Recommended dilution	1 : 2000 (WB)
Expected apparent MW	25 28 kDa
	Synechococcus sp. strain PCC 7942
Predicted reactivity	Species of your interest not listed? Contact us
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
Additional information	For western blot detection image refer to the article below
