## Product no AS10 841

## Donkey anti-Rabbit IgG (H&L), ALP conjugated

## **Product information**

Immunogen Purified Rabbit IgG

**Host** Donkey

Clonality Polyclonal

**Purity** Immunogen affinity purified donkey IgG.

Format Liquid

Quantity 1 mg

Storage

Non-diluted antibody is stable for 4 years at 2-8 °C. For storage at -20 °C dilute antibody solution with an equal volume of glycerol to obtain final glycerol concentration of 50 % to prevent loss of enzymatic activity. Such solution will not freeze in -20°C. If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard, Be sure to mix well but without

Additional information

ALP conjugate is supplied in 30 mM Triethanolamine, pH 7,2, 5 mM Magnesium Chloride, 0,1 mM Zinc Chloride, 1 % (w/v) BSA, Protease/IgG free, 0,05 % (w/v) of sodium azide is added as preservative

## **Application information**

Recommended dilution 1:500-1:2000 (ELISA), 1:50-1:5000 (ICC),, 1:20-1:2000 (IHC), 1:500-1:2000 (WB)

Confirmed reactivity Rabbit IgG (H&L)

Predicted reactivity Rabbit IgG (H&L)

Not reactive in No confirmed exceptions from predicted reactivity are currently known

Additional information This antibody reacts with alpha (heavy chains) on rabbit IgG and all light chains on rabbit immunoglobulins based on

immunoelectrophoresis.

No reactivity is observed to non-immunoglobulin rabbit serum proteins based in immunoelectrophoresis.
