Product no AS09 604 Donkey anti-Sheep IgG (H&L), HRP conjugated Product information

| Immunogen | Purified sheep IgG, whole molecule |
|-------------------------|---|
| Host | Donkey |
| Clonality | Polyclonal |
| Purity | Immunogen affinity purified donkey IgG. |
| Format | Lyophilized |
| Quantity | 1 mg |
| Reconstitution | For reconstitution add 1.1 ml of sterile water. Let it stand 30 minutes at room temperature to dissolve. Centrifuge to remove any particulates. Prepare fresh working dilutions daily |
| Storage | Store lyophilized material at 2-8°C. For storage at -20°C after reconstitution dilute antibody solution with an equal volume of glycerol to obtain final glycerol concentration of 50 % to prevent loss of enzymatic activity. Such solution will not freeze in -20°C. If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard, Be sure to mix well but without foaming. |
| Additional information | Antibody concentration is 1 mg/ml and it has been purified by antigen-specific chromatography |
| | HRP-conjugate is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 10 % (w/v) BSA, Protease/IgG free |
| | 0.1 % (v/v) of ProClin 150 is used as preservative. |
| | For blocking: BSA and nonfat milk have to be replaced by other blocking reagents, like <u>doneky serum</u> or commercial formulations which are free from bovine IgG. |
| Application information | |

| Recommended dilution | 1 : 200 -1 : 5 000 (ELISA), 1 : 200-1 : 5 000 (WB) 1 : 500 -1 : 5000 (IHC) |
|----------------------|--|
| Confirmed reactivity | Sheep IgG heavy chains and light chains on all sheep immunoglobulins |
| Not reactive in | Non-immunoglobulin sheep serum proteins based in immunoelectrophoresis |
