

Product no **AS15 3087****Anti-Endo-beta-1,4 xylanase (hyperthermophilic enzyme)****Product information**

| | |
|-----------------------|---|
| Immunogen | His-tagged, recombinant from endo-beta-1,4 xylanase (hyperthermophilic enzyme) of <i>Thermotoga neapolitana</i> , overexpressed in <i>E.coli</i> , UniProt: B9K775 |
| Host | Rabbit |
| Clonality | Polyclonal |
| Purity | Serum |
| Format | Lyophilized |
| Quantity | 50 µl |
| Reconstitution | For reconstitution add 50 µl of sterile water |
| Storage | Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube. |

Application information

| | |
|-------------------------------|---|
| Recommended dilution | 1 : 3000 (WB) |
| Expected apparent MW | 119 kDa |
| Confirmed reactivity | <i>Thermotoga neapolitana</i> |
| Predicted reactivity | <i>Thermotoga neapolitana</i> |
| Not reactive in | No confirmed exceptions from predicted reactivity are currently known |
