Agrisera Part of Olink® Group 🕏

This product is for research use only (not for diagnostic or therapeutic use)

Agrisera AB | Box 57 | SE-91121 Vännäs | Sweden | +46 (0)935 33 000 | www.agrisera.com

Product no AS06 182 GLDH | Galactono-1,4 lactone dehydrogenase

Product information

Immunogen	Recombinant C-terminal of Zea mays GLDH, UniProt: COHFL3
Host	Rabbit
Clonality	Polyclonal
Purity	Total IgG. Protein G purified in PBS pH 7.4.
Format	Lyophilized
Quantity	100 μl
Reconstitution	For reconstitution add 100 µl of sterile water
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Total IgG concentration is 6,8 μg/μl
Application information	
Recommended dilution	1 : 5000 (WB)
Expected apparent MW	68 kDa
Confirmed reactivity	Avena sativa, Glycine max, Hordeum vulgare, Helianthus annuus, Oryza sativa, Zea mays
Predicted reactivity	Arabidopsis thaliana, Zostera marina Species of your interest not listed? <u>Contact us</u>
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
Additional information	Mitochondrial, membrane or meristematic fractions were shown to be richer in GLDH expression
