Product no AS10 1080

Goat anti-Guinea pig IgG (H&L), DyLight® 488 conjugated, min, cross-reactivity to bovine, chicken, goat, hamster, horse, human, mouse, rabbit, rat, sheep Serum

Product information

Immunogen	Purified Guinea pig IgG, whole molecule
Host	Goat
Clonality	Polyclonal
Purity	Immunogen affinity purified goat IgG.
Format	Lyophilized
Quantity	1 mg
Reconstitution	For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily
Storage	Store lyophilized material at 2-8°C. Product is stable for 4 weeks at 2-8°C after rehydration. For long time storage after reconstitution, dilute the antibody solution with glycerol to a final concentration of 50% glycerol and store as liquid at -20°C, to prevent loss of enzymatic activity. For example, if you have reconstituted 1 mg of antibody in 1,1 ml of sterile water add 1,1 ml of glycerol. Such solution will not freeze in -20°C, If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard. Be sure to mix well but without foaming.
Additional information	Conjugate is present in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free. 0.05 % (w/v) sodium azide is added as preservative. Based on immunoelectrophoresis, this antibody reacts with: heavy ( ) chains on guinea pig IgG, light chains on all guinea pig immunoglobulins No reactivity is observed to: non-immunoglobulin guinea pig serum proteins, serum proteins from bovine, chicken, goat, hamster, horse, human, mouse, rabbit, rat or sheep

Application information

Recommended dilution	1 : 20-1 : 2000 for most applications
Predicted reactivity	
Not reactive in	
Additional information
