

**Product no** **AS10 1055****Goat anti-Rabbit IgG (H&L), Biotin conjugated, min, cross-reactivity to bovine,goat,human, mouse, rat IgG****Product information****Host** | Goat**Clonality** | Polyclonal**Purity** | Immunogen affinity purified IgG.**Format** | Liquid**Quantity** | 1 mg**Storage** | Store at 2-8°C. Shelf life of this product is one year from date of receipt.**Additional information** | This antibody reacts with the heavy chains on rabbit IgG and with the light chains on all rabbit immunoglobulins based on immunoelectrophoresis.

Minimum cross-reactivity is observed to non-immunoglobulin rabbit serum proteins based on immunoelectrophoresis. Minimum cross-reactivity is observed to IgG from bovine, goat, human, mouse or rat based on immunoelectrophoresis.

Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free and 0.1 % (v/v) Kathon CG is used as preservative. Use of sodium azide will inhibit enzymatic activity of horseradish peroxidase.

**Application information****Recommended dilution** | The optimal working dilution should be determined by the investigator
