

Product no **AS09 647****Anti-GSNOR | S-nitrosogluthathione reductase****Product information**

<b>Immunogen</b>	Overexpressed, full-length GSNOR derived from <i>Arabidopsis thaliana</i> <a href="#">Q96533</a> , <a href="#">At5g43940</a>
<b>Host</b>	Rabbit
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Serum
<b>Format</b>	Lyophilized
<b>Quantity</b>	50 µl
<b>Reconstitution</b>	For reconstitution add 50 µl of sterile water
<b>Storage</b>	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

**Additional information** | Antibody is easily detecting GSNOR in a load per well of 5 µg of total *Arabidopsis thaliana* cell extract

**Application information**

<b>Recommended dilution</b>	1 : 1000 (WB)
<b>Expected   apparent MW</b>	40.7   40.7 kDa
<b>Confirmed reactivity</b>	<i>Arabidopsis thaliana</i> , <i>Brassica napus</i> , <i>Helianthus annuus</i> , <i>Stevia rebaudiana</i>
<b>Predicted reactivity</b>	<i>Brassica napus</i> , <i>Oryza sativa</i> , <i>Pisum sativum</i> , <i>Populus balsamifera</i> , <i>Ricinus communis</i> , <i>Solanum lycopersicum</i> , <i>Solanum tuberosum</i> , <i>Zea mays</i>
	Species of your interest not listed? <a href="#">Contact us</a>
<b>Not reactive in</b>	No confirmed exceptions from predicted reactivity are currently known

**Application example**

**2 µg of total protein** from (1) *Arabidopsis thaliana* WT and GSNOR null mutant were separated on **7.5%SDS-PAGE** and blotted 1h to **nitrocellulose** (Biorad). Blots were incubated anti-GSNOR antibodies at a dilution of 1: 1 000 for 1h at room temperature with agitation and secondary HRP-conjugated antibody (1: 10 000).
