

Product no **AS09 647****GSNOR | S-nitrosogluthione reductase****Product information**

Immunogen	Overexpressed, full length GSNOR derived from <i>Arabidopsis thaliana</i> Q96533 , At5g43940
Host	Rabbit
Clonality	Polyclonal
Purity	Serum
Format	Lyophilized
Quantity	50 µl
Reconstitution	For reconstitution add 50 µl of sterile water
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Antibody is easily detecting GSNOR in a load per well of 5 µg of total <i>Arabidopsis thaliana</i> cell extract

Application information

Recommended dilution	1 : 1000 (WB)
Expected apparent MW	40,7 40,7 kDa
Confirmed reactivity	<i>Arabidopsis thaliana</i> , <i>Brassica napus</i> , <i>Helianthus annuus</i> , <i>Stevia rebaudiana</i>
Predicted reactivity	<i>Brassica napus</i> , <i>Oryza sativa</i> , <i>Pisum sativum</i> , <i>Populus balsamifera</i> , <i>Ricinus communis</i> , <i>Solanum lycopersicum</i> , <i>Solanum tuberosum</i> , <i>Zea mays</i> Species of your interest not listed? Contact us
Not reactive in	No confirmed exceptions from predicted reactivity are currently known

Application example

2 µg of total protein from (1) *Arabidopsis thaliana* WT and GSNOR null mutant were separated on **7.5%SDS-PAGE** and blotted 1h to **nitrocellulose** (Biorad). Blots were incubated anti-GSNOR antibodies at a dilution of 1 : 1 000 for 1h at room temperature with agitation and secondary HRP-conjugated antibody (1: 10 000).
