

Product no **AS21 4635**

Ribonucleic acid polymerase, biotin conjugated, *Escherichia coli*

Product information

Immunogen	Ribonucleic acid polymerase isolated and purified from <i>Escherichia coli</i> , UniProt: P0A7Z4 .
Host	Rabbit
Clonality	Polyclonal Ribonucleic acid polymerase isolated and purified from <i>Escherichia coli</i> , Freund's complete adjuvant is used in the first step of the immunization procedure
Purity	Biotin-conjugated, purified IgG in PBS, pH 7.2.
Format	Lyophilized
Quantity	10 mg
Reconstitution	For reconstitution add 1 ml of sterile, distilled water
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Application information

Confirmed reactivity	<i>Escherichia coli</i>
Predicted reactivity	Species of your interest not listed? Contact us
