

Product no **AS10 1402**

Goat anti-Human kappa chain, Affinity purified, Unconjugated

Product information

Immunogen	Purified, free, human Kappa (k) Chain BAA37169.1
Host	Goat
Clonality	Polyclonal
Purity	Immunogen affinity purified goat IgG using solid phase Human Kappa (k) Chain
Format	Liquid, clear, colorless, 0.2 µm filtered.
Quantity	1 mg
Storage	Store at 2-8°C.

Additional information Purity of this preparation is > 95% based on SDS-PAGE. Antibody concentration is > 4.5 mg/ml (E 1% at 280 nm = 13.0).

This antibody is reactive to purified (free) Human Kappa chain, and it is also highly likely to react to kappa in the bound state.

Application information

Recommended dilution The optimal working dilution should be determined by the investigator

Confirmed reactivity Human (k) Light Chain

Additional information Provided in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2 with 0.05 % sodium azide as preservative.

Based on IEP, no reactivity is observed to:

- non-immunoglobulin human serum immunoglobulins
- heavy chains on all human immunoglobulins
- lambda () light chains on all human immunoglobulins
