

Product no **AS10 979****Goat anti-Human IgM (μ chain), F(ab)'2 fragment, Biotin conjugated, min, cross-reactivity to human IgG or IgA**

Product information

Host | Goat**Clonality** | Polyclonal**Purity** | Immunogen affinity purified goat IgG, F(ab)'2 fragment.**Format** | Liquid**Quantity** | 0.5 mg**Storage** | Store at 2-8°C. Shelf life of this product is one year from date of receipt.**Additional information** | This antibody reacts with the heavy chains on human IgM based on immunoelectrophoresis.

Minimum cross-reactivity is observed with IgG or IgA immunoglobulins based on immunoelectrophoresis. Minimum cross-reactivity is observed to non-immunoglobulin human serum proteins based on immunoelectrophoresis.

Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 1% (w/v) BSA, Protease/IgG free and 0.1% (v/v) Kathon CG is used as preservative. Use of sodium azide will inhibit enzymatic activity of horseradish peroxidase.

Application information

Recommended dilution | The optimal working dilution should be determined by the investigator
