Product no AS19 4295

Anti-MS | Malate synthase, (glyoxysomal)

Product information

Immunogen KLH-conjugated peptide derived from Cucurbita maxima UniProt: P24571

Host Rabbit

Clonality Polyclonal

Purity Serum

Format Lyophilized

Quantity 50 μl

Reconstitution For reconstitution add 50 μl, of sterile water

Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Application information

Recommended dilution 1:1000 (WB)

Expected | apparent

65 kDa

Confirmed reactivity Nicotiana tabacum

Predicted reactivity

Arabidopsis thaliana, Cajanus cajan, Cinnamomum micranthum f. kanehirae, Cucumis sativus, Cucurbita maxima, Fagus sylvatica, Glycine max, Jatropha curcas, Morus notabilis, Mucuna pruriens, Parasponia andersonii, Populus alba x tremula, Theobroma cacao, Trema orientale

Species of your interest not listed? Contact us

Not reactive in Sorghum bicolor

Additional information

Experimental contitions:

5 µg of total protein extracted freshly from 3-4 weeks old plant leaves with a blender at 4 °C in 300 mM Sorbitol, 50 mM HEPES, 5mM MgCl₂. Separated on 10 % SDS-PAGE and blotted 1h to PVDF, semi-dry. Blot was blocked with 6 % milk for 1h 4°C with agitation. Blot was incubated in the primary antibody at a dilution of 1: 1 000 ON at 4°C with agitation.

According to South et. al (2019).
