Product no AS00 001

Anti-FVIIa | Coagulation factor VIIa (50 µg)

Product information

Immunogen	Recombinant human Factor VIIa (NovoSeven ®, Novo Nordisk A/S Denmark)
Host	Rabbit
Clonality	Polyclonal
Purity	Immunogen affinity purified IgG in PBS pH 7.4.
Format	Lyophilized
Quantity	50 µg
Reconstitution	For reconstitution add 50 µl of sterile water
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them, to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	No significant difference in binding to Factor VII and Factor VIIa. Antibody is purified to total IgG fraction, followed by purification on specific FVIIa column.

Application information

Recommended dilution	1 : 15 000 (I-ELISA), 14 µg/ml (IL)
Expected | apparent MW	52 kDa (this is MW of Factor VIIa)
Confirmed reactivity	Human
Predicted reactivity	Primates
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
Additional information	This antibody is purified using Protein G, to obtain a total IgG fraction
