

Product no **AS21 4616****Anti-Beta-Galactosidase (mouse monoclonal) (clone BG-02)****Product information**

Immunogen	beta-Galactosidase purified from <i>E. coli</i> . UniProt: P00722
Host	Mouse
Clonality	Monoclonal
Subclass/isotype	IgG1
Purity	Immunoglobulin purified on Protein A.
Format	Liquid at 1 mg/ml.
Quantity	0.1 mg
Storage	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Additional information | This antibody recognizes a non-catalytic centre epitope of beta-galactosidase from *E. coli*.

Application information

Recommended dilution	1 µg/ml (WB)
Expected apparent MW	116.5 kDa
Confirmed reactivity	<i>Escherichia coli</i> , GalB-tagged fusion proteins
Selected references	To be included, antibody released in October 2021.

Purified beta galactosidase from *E.coli*, non-reduced sample was separated on SDS-PAGE and transferred to a membrane. Protein visualization was done using anti- beta galactosidase monoclonal antibodies at 1 µg/ml, followed by secondary anti-mouse IgG antibodies, HRP conjugated. Reaction was visualized using chemiluminescence, according to manufacture's recommendation.
