

Western blot detection reagents

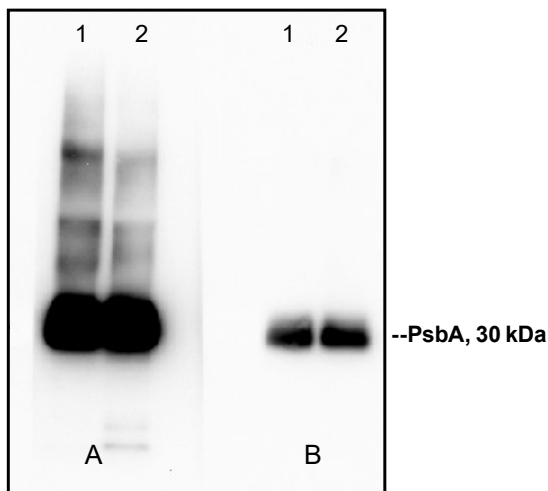

ECL Reagents

Product name.....	Product number.....	Application
AgriseraECL Bright (10 ml, 100 ml, 1 L).....	AS16 ECL-N.....	WB
AgriseraECL SuperBright (10 ml, 100 ml, 1 L).....	AS16 ECL-S.....	WB
Agrisera ECL kit (Bright/SuperBright) (10 ml, 100 ml, 1 L).....	AS16 ECL-S-N.....	WB

“Sensitive and almost no background”

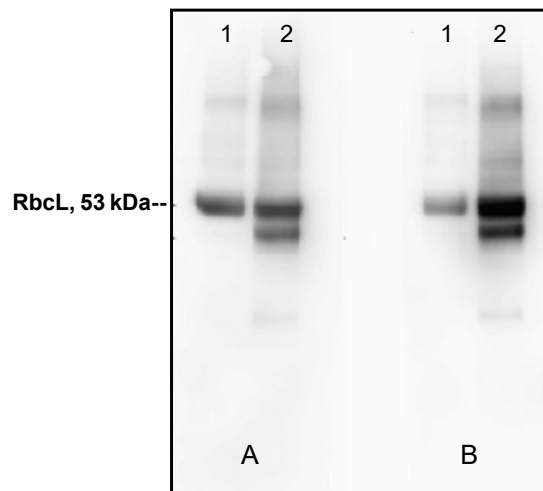

Application examples

AgriseraECL SuperBright, AgriserECL Bright
Product #: AS16 ECL-S, AS16 ECL-N

Comparison of AgriserECL SuperBright (A) and AgriserECL Bright (B) on total protein from *A. thaliana* leaf (1), *H. vulgare* leaf (2).

AgriserECL SuperBright
Product #: AS16 ECL-S

Comparison of ECL from a competitor (A) and AgriserECL SuperBright (B) on total protein from *A. thaliana* leaf (1), *H. vulgare* leaf (2).

“After optimizing the transfer according to your suggestions, and using the Agrisera SuperBright ECL instead of normal ECL, the detection time went from around 45 minutes to less than 10 seconds, so I will definitely continue to use it”
