

AGO, Argonaute set | 4 antibodies

Qty: AS18 4248

AS18 4248 | Clonality: **Polyclonal** | Host: **Rabbit** | Reactivity: ***Arabidopsis thaliana***

This set contains:

- 4 Anti-AGO antibodies of your choice, chosen from a drop down menu below
- Matching secondary antibody, HRP conjugated, min. 1: 25 000, 1h/RT ([AS09 602 - trial](#))

Price: 1202 €

The following antibodies can be purchased as a part of the AGO antibody set, using the drop down menus.

[AS09 527](#) | AGO1 | Argonaute 1

[AS13 2682](#) | AGO2 | Argonaute 2

[AS09 617](#) | AGO4 | Argonaute 4

[AS10 671](#) | AGO5 | Argonaute 5

[AS10 672](#) | AGO6 | Argonaute 6

[AS10 673](#) | AGO9 | Argonaute 9

[AS15 3071](#) | AGO10 | Argonaute 10

This set also includes:

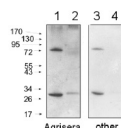

Secondary antibody

Goat anti-Rabbit IgG, HRP-conjugated-trial sample(10 µl)

To be used at dilutions from 1: 25 000 to 1: 50 000, 1h/RT incubation.

Tested on a wide range of species including: dicots, monocots, moss, algae, cyanobacteria and diatoms. High dilution this antibody can be used provides a benefit of low background signal.

Enough for 50 Western blots (10 ml incubation volume/test).
