Product no AS15 2834 Anti-At2g21960

Product information

Immunogen KLH-conjugated peptide, derived from Arabidopsis thaliana, UniProt: Q9SJ03, TAIR: AT2G21960

Host Rabbit

Clonality Polyclonal

Purity Immunogen affinity purified serum in PBS pH 7.4.

Format Lyophilized

Quantity 50 μg

Reconstitution For reconstitution add 50 μl of sterile water

Storage Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to

the cap or sides of the tube.

Application information

Recommended dilution 1:1000 (WB)

Expected | apparent MW

35 kDa

Confirmed reactivity Arabidopsis thaliana

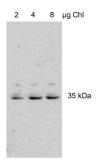

Predicted reactivity

Higher plants

Species of your interest not listed? Contact us

Not reactive in No confirmed exceptions from predicted reactivity are currently known

Application example

2, 4, 8 µg of chlorophyll from Arabidopsis thaliana thylakoids were separated on 12 % SDS-PAGE and blotted 1h to nitrocellulose membrane using tank transfer. Blots were blocked with 10% Milk for 1h at room temperature (RT) with agitation. Blot was incubated in the primary antibody at a dilution of 1: 1 000 overnight with agitation. The antibody solution was decanted and the blot was rinsed briefly twice, then washed three times for 15 min in TBS-T at RT with agitation. Blot was incubated in secondary antibody (anti-rabbit IgG horseradish peroxidase conjugated, from Agrisera AS09 602) diluted to 1:8 000 in TTBS for 1h at RT. The blot was washed as above and developed for 5 min with ECL according to the manufacturer's instructions. Exposure time was 3 minutes.
