

Product no **AS08 280****Anti-B-PE | phycoerythrin and phycourobilin****Product information**

Immunogen	native purified B-phycoerythrin of <i>Porphyridium cruentum</i> with attached chromophores
Host	Rabbit
Clonality	Polyclonal
Purity	Serum
Format	Lyophilized
Quantity	200 µl
Reconstitution	For reconstitution add 200 µl of sterile water
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Application information

Recommended dilution	1 : 1000 - 5000 (WB)
Expected apparent MW	17-20 and 30-34 kDa
Confirmed reactivity	<i>Porphyridium cruentum</i>
Predicted reactivity	Algae (red), <i>Cyanobacteria</i> , Cryptomonads
	Species of your interest not listed? Contact us
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
