

Product no **AS21 4627**

Anti-c-Myc tag, FITC conjugated (clone 9E10)

Product information

Immunogen	Conjugated synthetic peptide: AEEQKLISEEDLL derived from the C-terminal region of human c-Myc. UniProt: P01106
Host	Mouse
Clonality	Monoclonal
Subclass/isotype	IgG1
Purity	Conjugated with fluorescein isothiocyanate (FITC) under optimum conditions and purified by size-exclusion chromatography.
Format	Liquid at 1 mg/ml.
Quantity	0.1 mg. The conjugate is purified
Storage	Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light. Do not use after expiration date stamped on vial label. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Application information

Recommended dilution | 1-5 µg/ml (FlowCyt)

Confirmed reactivity | c-Myc tagged fusion proteins

Selected references | To be added when available, antibody released in October 2021.

Flow cytometry analysis of transfected LST-1-c-Myc in HEK-293 cells (red) compared with nontransfected HEK-293 cells (blue) using mouse monoclonal anti-c-Myc (9E10) FITC antibodies.

Flow cytometry analysis (intracellular staining) of transfected LST-1-c-Myc in HEK-293 cells (red-filled) compared with nontransfected HEK-293 cells (black-dashed) using mouse monoclonal anti-c-Myc (9E10) FITC conjugated antibodies.
