Product no AS10 835

Chicken anti-Rabbit IgG (H&L), ALP conjugated, min, cross-reactivity to human, mouse IgG Product information

Immunogen Purified Rabbit IgG

Host Chicken

Clonality Polyclonal

Purity Immunogen affinity purified chicken IgY.

Format Liquid

Quantity 0.5 mg

Storage

Non-diluted antibody is stable for 4 years at 2-8 °C. For storage at -20 °C dilute antibody solution with an equal volume of glycerol to obtain final glycerol concentration of 50% to prevent loss of enzymatic activity. Such solution will not freeze in -20 °C. If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard, Be sure to mix well but without foaming.

Additional information

ALP conjugate is supplied in 30 mM Triethanolamine, pH 7.2, 5 mM Magnesium Chloride, 0.1 mM Zinc Chloride, 1% (w/v) BSA. Protease/IgG free. 0.05 % (w/v) of sodium azide is added as preservative

Application information

Recommended dilution 1:500-1:2000 (ELISA), 1:50-1:5000 (ICC), 1:20-1:2000 (IHC), 1:500-1:2000 (WB)

Confirmed reactivity Rabbit IgG (H&L)

Predicted reactivity Rabbit IgG (H&L)

Not reactive in No confirmed exceptions from predicted reactivity are currently known

Additional information This ant

This antibody reacts with the heavy chains on rabbit IgG and the light chains on all rabbit immunoglobulins based on immunoelectrophoresis.

No reactivity is observed to non-immunoglobulin rabbit serum proteins or to human or mouse serum or IgG based on immunoelectrophoresis.
