Product no AS09 431

Anti-Cytokinin | Cis-zeatin riboside (for immunolocalization)

Product information

Immunogen BSA-conjugated, via riboside, cis-zeatin riboside

Host Rabbit

Clonality Polyclonal

Purity Total IgG. Protein G purified in PBS.

Format Liquid

Quantity 200 μg

Storage Storage Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please

remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to

the cap or sides of the tube.

Additional information Cytokinin | Cis-zeatin riboside (for immunolocalization)

Application information

Recommended dilution Specific information about dilution is going to be included on the vial

Confirmed reactivity Cis-zeatin riboside

Predicted reactivity Cis-zeatin riboside

Not reactive in No confirmed exceptions from predicted reactivity are currently known

Additional information For 1 mg of antibodies For ELISA and immunoassay or For ELISA kit - please inquire, Antibodies are supplied in 50%

glycerol, This antibody cannot discriminate between the zeatin ribozide and zeatin, Zeatin cross-reactivity is usually

lower ca,50%,BSA can be used For blocking using this antibody
