

Product no **AS25 5118**

Goat anti-Rabbit IgG Fc, Affinity Purified, min x/bovine horse or human serum proteins

Product information

Immunogen | Purified rabbit IgG, Fc fragment.**Host** | Goat**Clonality** | Polyclonal**Purity** | Affinity purified using solid phase rabbit IgG**Format** | Liquid, colorless, 0.2 µm filtered**Quantity** | 2 mg**Storage** | Store material at 2-8°C.**Additional information** | Concentration: 9.4 mg/ml

Antibody is provided in: 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. and 0.05 % (w/v) sodium azide is added as a preservative.

Affinity purified antibody is >95% pure, according to SDS-PAGE.

Application information

Recommended dilution | The optimal working dilution should be determined by the investigator.**Confirmed reactivity** | Based on IEP, this antibody reacts with heavy () chains on Rabbit IgG.**Not reactive in** | Based on the results of immunoelectrophoresis (IEP), no reactivity is observed to:

- light chains on all rabbit immunoglobulins
- non-immunoglobulin rabbit serum proteins,
- rabbit IgG F(ab)'2 fragment,
- serum proteins from bovine, horse, or human.
