Product no AS18 4245

Goat anti-Rat IgA (Fc specific), TRITC-conjugated

Product information

Immunogen Purified pools of homogenous IgA isolated from pooled rat serum,

Host Goat

Clonality Polyclonal

Purity Purified by salt precipitation, followed by a ion-exchange chromatography with DEAE Sepharose, in PBS pH 7.2.

Format Lyophilized

Quantity 10 mg

Reconstitution For reconstitution add 1 ml of sterile destilled water, Spin down to remove insoluble particles

Storage Store at +4°C, for long time storage, store at -20°C.

Additional information Does not react with any non-lg protein in rat serum.

It does not discriminate between serum IgA (monomeric and dimeric) and higher molecular forms such as secretory

lαA.

Application information

Recommended dilution The optimum working dilution should be established by titration before being used

Confirmed reactivity Rat IgA Fc
