

Product no **AS25 5116**

## Goat anti-Rat IgM Fc, HRP conjugated

### Product information

<b>Immunogen</b>	Purified homogenous rat IgM
<b>Host</b>	Goat
<b>Clonality</b>	Polyclonal
<b>Format</b>	Lyophilized
<b>Quantity</b>	1 ml reconstituted
<b>Reconstitution</b>	For reconstitution, add 1 ml of sterile water. Let it stand 30 minutes at room temperature to dissolve. Spin centrifuge shortly to remove any particles. Prepare fresh working dilutions daily by adding sterile phosphate buffered saline (PBS, pH 7.2).
<b>Storage</b>	Store lyophilized material at 2-8°C. For long time storage at or below -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please, remember to spin tubes briefly prior to opening them to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tubes.
<b>Additional information</b>	HRP conjugated goat IgG in PBS pH 7.2. No preservative is added.

### Application information

<b>Recommended dilution</b>	The optimum working dilution of each conjugate should be established by titration before being used.
<b>Confirmed reactivity</b>	Fc part of the rat IgM
<b>Not reactive in</b>	Rat IgG, IgG/Fab fragments and IgA or any non-Ig protein in rat serum.
