Product no AS15 3088

Anti-LHCb9 | Light-harvesting complex

Product information

Immunogen recombinant LHCb9.1 protein from *Physcomitrium patens*, Pp1s23_96V6 (phytozome), overexpressed in *E.coli*

Host Rabbit

Clonality Polyclonal

Purity Serum

Format Lyophilized

Quantity 50 μl

Reconstitution For reconstitution add 50 μl of sterile water

Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to

the cap or sides of the tube.

Application information

Recommended dilution 1:10 000 (WB)

Expected | apparent

Selected references

29.3 | 26 kDa

Confirmed reactivity Physcomitrium patens

Predicted reactivity Physcomitrium patens

Not reactive in No confirmed exceptions from predicted reactivity are currently known

Additional information This antibody will recognize both recombinant LHCb9,1 and LHCb9,2 isoforms with similar affinity
