Product no AS16 3233-1ml Non-fucosylated xyloglucan-2 (clone CCRC-M88)

Product information

Immunogen	BSA-conjugated tomato (Lycopersicum esculentum) xyloglucan, covalent binding.
Host	Mouse
Clonality	Monoclonal
Subclass/isotype	lgG1
Purity	Cell culture supernatant.
Format	Liquid
Quantity	1 ml
Storage	Antibody can be stored up to 1 month at 4°C, and at -80°C for up to 1 year. Make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Exact working dilution needs to be determined by end user
Application inform	ation
Recommended dilution	Undiluted or at 1 : 10 (ELISA), (IF), (IHC)
Confirmed reactivity	Acer pseudoplatanus, Arabidopsis thaliana, Solanum lycopersicum, Tamarindus indicus
Predicted reactivity	Dicots Species of your interest not listed? <u>Contact us</u>
Not reactive in	No confirmed exceptions from predicted reactivity are currently known
Additional information	CCRC-M88 does not bind to XXXG, but does bind to other xyloglucan oligosaccharides, CCRC-M88 also binds to pectic polysaccharide preparations from several plants
