Product no AS06 116

Anti-PGL35 | Plastoglobulin 35; FIB1a; FBN1a

Product information

Immunogen	Recombinant *Arabidopsis thaliana* PGL35 protein O81439, At4g04020
Host	Rabbit
Clonality	Polyclonal
Purity	Serum
Format	Lyophilized
Quantity	200 µl
Reconstitution	For reconstitution add 200 µl of sterile water
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.
Additional information	Cellular [compartment marker] of chloroplast plastoglobules. For IC samples were embedded in Lowicryl HM20 and sectioned into 100-nm-thick sections and placed on Formvar-coated gold slot grids. The sections were blocked for 20 min with a 5% (w/v) solution of nonfat milk in TBS plus 0.1%Tween 20 (TBST). Anti-PGL antibodies were diluted 1:20 in a solution of 2.5% nonfat milk in TBST at room temperature for 1 h. The sections were rinsed in a stream of TBS plus 0.5% Tween 20 and then transferred to the secondary antibody (anti-rabbit IgG 1:20 in TBST) conjugated to 10-nm gold particles for 1 h. images of localization can be found in Austin et al. (2006).

Application information

Recommended dilution	1 : 20 (IC), 1 : 1000-1 : 3000 (WB)
Expected | apparent MW	35 kDa
Confirmed reactivity	*Arabidopsis thaliana, Citrus reticulata, Gossypium hirsutum* cv. Deltapine 90
Predicted reactivity	*Brassica napus, Brassica campestris, Capsicum annum, Hordeum vulgare* Species of your interest not listed? Contact us
Not reactive in	*Chlamydomonas reinhardtii, Pheodactylum tricornutum, Pisum sativum*
Additional information	AtPGL35 is highly similar to *Pisum sativum* PG1
