

Product no **AS10 997****Rabbit anti-Goat IgG (H&L), F(ab)'2 fragment, Biotin conjugated****Product information****Host** | Rabbit**Clonality** | Polyclonal**Purity** | Immunogen affinity purified goat IgG, F(ab)'2 fragment.**Format** | Liquid**Quantity** | 0.5 mg**Storage** | Store at 2-8°C. Shelf life of this product is one year from date of receipt.**Additional information** | This antibody reacts with the heavy chains on goat IgG and with the light chains on all goat immunoglobulins based on immunoelectrophoresis.

Minimum cross-reactivity is observed to non-immunoglobulin goat serum proteins based on immunoelectrophoresis.

Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 1% (w/v) BSA, Protease/IgG free and 0.1% (v/v) Kathon CG is used as preservative. Use of sodium azide will inhibit enzymatic activity of horseradish peroxidase.

BSA and milk have to be replaced by other blocking reagents, like donkey serum or commercial formulations which are free from bovine IgG.

**Application information****Recommended dilution** | The optimal working dilution should be determined by the investigator
