## Product no AS12 2537

## Rabbit anti-Llama IgG (H&L), DyLight® 350 conjugated

## **Product information**

**Immunogen** Purified llama IgG, whole molecule

**Host** Rabbit

Clonality Polyclonal

**Purity** Immunogen affinity purified rabbit IgG.

Format Lyophilized

Quantity 1 mg

Reconstitution

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily

Storage

Store lyophilized material at 2-8 °C. Product is stable for 4 weeks at 2-8 °C after rehydration. For long time storage after reconstitution, dilute the antibody solution with glycerol to a final concentration of 50% glycerol and store as liquid at -20°C, to prevent loss of enzymatic activity. For example, if you have reconstituted 1 mg of antibody in 1,1 ml of sterile water add 1,1 ml of glycerol. Such solution will not freeze in -20°C, If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard. Be sure to mix well but without foaming.

**Additional information** 

Conjugate is present in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/lgG free. 0.05 % (w/v) sodium azide is added as preservative.

Based on immunoelectrophoresis, this antibody reacts with: heavy ( ) chains on llama IgG, light chains on all llama immunoglobulins

This antibody will react with VHH of Ilama IgG's.

No reactivity is observed to: non-immunoglobulin llama serum proteins

## **Application information**

**Recommended dilution** 1 : 20-1 : 2000 for most applications

Not reactive in

Additional information
